<p>FCC order requires broadcasters to notify the FCC if their station broadcasts a false EAS alert and has enacted a requirement to do so within 24 hours of becoming aware email the FCC Ops Center FCCOPS@fcc.gov</p>	<p>State monthly tests (RMT) required and must be re-transmitted within 60 minutes of the time they are received. (RMT) Immediate relay is required for LP-1s</p> <p>RMT and Statewide alert activations are to be run with original audio payload. This validates store and forward capability.</p>	<p>FCC's Part 11 Rules provide for odd-numbered months, the RMT will be scheduled between 8:30 a.m. and local sunset; during even-numbered months, RMT is to be scheduled between local sunset and 8:30 a.m. Weekly tests are not required during the week a RMT is conducted</p>	<p>EAS Activations: If an RMT is missed in any given month, notify CT SECC, Run a RWT as substitute and note in your log accordingly. Although RMT may be skipped in any month in which EAS is activated as per §11.51, CT Broadcasters have requested the SECC continue with the normal RMT schedule regardless if the system is activated or not for continuity of recordkeeping reasons. SECC will attempt to coordinate a make up test if originator fails to issue</p>
---	---	--	--

CT State Plan requires EAS
Equipment Relay of
CAE (AMBER ALERT)
CEM (Civil Emergency Message)
